Phone Number: [REDACTED] [REDACTED]

Documents Requested:*(Provide as much detail as possible to assure the documents you are requesting can be located.)*

Good afternoon,

I am making this request under the Missouri Sunshine Law, Chapter 610, RSMo, including 610.023, 610.024, and 610.026.

In LSPD's recently published 2025 Annual Report, the department included a section titled "FLOCK Camera Project." That section states that LSPD has "strong safeguards in place to protect privacy" and operates Flock under "strict legal and policy controls." It also references an agreement with Flock and states that photographs are automatically deleted after 30 days unless archived as part of an active investigation or case.

I would like copies of the records behind those statements.
Specifically, I am requesting:

The current LSPD policy, general order, SOP, directive, or other written policy governing the use of Flock cameras, ALPR systems, Flock searches, hotlists, alerts, retention, sharing, and access to collected data.

Any previous versions of that policy that were in effect during 2024 or 2025.

The complete agreement between the City of Lee's Summit and/or LSPD and Flock Safety, including contracts, amendments, addenda, statements of work, subscription agreements, data sharing terms, retention terms, and any other documents that are part of that agreement.

Records establishing the 30 day deletion period mentioned in the Annual Report, as well as the rules for preserving or archiving Flock records beyond 30 days.

Any policy stating who is allowed to archive a detection, why it may be archived, whether a case or incident number is required, and how long an archived detection can be retained.

Policies governing who within LSPD can access Flock and conduct searches, including any requirement to enter a reason, case number, incident number, or other justification for a search.

Policies concerning unauthorized or improper searches, including how misuse is reviewed, audited, reported, or disciplined.

Flock training materials currently provided to LSPD officers or employees.

I am also requesting any Flock access audits, search audits, compliance reviews, or similar records maintained by LSPD for 2024 and 2025. If Flock maintains an existing audit log showing searches conducted by LSPD users, I am requesting the existing report or export for 2025 showing the date and time of searches, stated search reason, case or incident number if applicable, user or unique user identifier, and associated agency.

I am not requesting license plate numbers, vehicle photographs, or identifying information belonging to members of the public as part of the audit log request. Those fields can be redacted if necessary.

The Annual Report also states that LSPD received "301,858 Flock hotlist alerts in 2025", including "48,516 hits on stolen plates and stolen vehicles", and says the increase was partly the result of "expanded database access."

I am requesting the existing records used to support those figures, including reports, exports, spreadsheets, summaries, or other records showing how those numbers were calculated.

I am also requesting records identifying what LSPD means by "expanded database access," including which databases, hotlists, networks, or other sources became available to LSPD, and when that access began.

Finally, I am requesting any existing list or record showing outside law enforcement agencies or governmental entities that were authorized during 2025 to access, search, receive, or share LSPD Flock/ALPR data.

I am requesting existing records only. I am not asking LSPD to create a new document or compile information that it does not already maintain.

Electronic copies are preferred.

Under § 610.023.3, RSMo, this request should be acted upon as soon as possible and no later than the end of the third business day after it is received. If additional time is necessary, please provide the reason for the delay and the earliest date and time the records will be available.

If any portion of a responsive record is closed, please redact the closed portion and provide the remainder as required by 610.024, RSMo.

If any record or portion of a record is withheld, please provide the specific provision of law being relied upon for the denial as provided by 610.023.4, RSMo.

If another City department is the custodian of any of these records, please let me know which department maintains them.

If there will be a substantial charge associated with this request, please send me an itemized estimate before doing work that will result in those charges. I am requesting electronic production where available and the lowest cost method of

production consistent with 610.026, RSMo.

Thank you,

Trace Kitzmann

All requests for information are subject to the following fees:

- Copying fee - .10¢ per page
- Research fee - Researcher's hourly rate
- Copy charge - \$15.00 per hour
- Copies of DVD's/CD's - \$10.00 each

Tax on document or DVD/CD copies is 8.475%.

****NOTE: You may be requested to pay an estimated cost prior to completion if your request is extensive.**

Good morning!

On August 13, 2026, the Lee's Summit Police Department Records Unit received your request for information regarding the Flock Camera Project. I am responding within three business days as required by §610.023.3, RSMo.

We are actively working to fulfill your request. At this time, the Records Unit is working on a significant number of Sunshine Law Requests and as a result, we will need additional time to complete your request. Due to the extensive process of search, review, and obtainment of records, we estimate that your request will be fulfilled in 25-30 business days.

Before providing responsive records, the Records Unit must:

1. Process and review the Sunshine Law request;
2. Notify relevant staff members of the request to obtain potentially responsive records that are not immediately accessible to the staff reviewers(s), if applicable.
3. Staff reviewer will then review the records to determine if they are responsive to the request.
4. Staff reviewer converts all responsive records in an accessible and useable format; and
5. Compile or print the responsive documents.

Please note that the above process is dependent upon the availability of other Lee's Summit Police Department staff members to locate records, the volume of the request, other active Records Unit Sunshine Law Requests, and the on-going work of staff reviewers.

610.026, RSMo allows for collection of fees, including search, research, and staff time for retrieving, identifying, providing the requested records. Please note, that an invoice or other request may be sent to you for any charges incurred in the fulfillment of your request prior to release of responsive records. The schedule of fees can be located at <https://cityofls.net/finance-budget-taxes/schedule-of-fees>.

Thank you,

Kristie Mitchell

Senior Records Clerk

Lee's Summit Police Department
